SUMMARY

Computer Science undergraduate and full-stack developer with hands-on experience building web applications using Python, Django, SQL, JavaScript, HTML, and CSS. Skilled in backend logic, database integration, authentication, AI API integration, and deployment. Seeking a Junior/Associate Python-Django Developer role to contribute to backend and full-stack development.

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL

Front-End: HTML5, CSS3, JavaScript (responsive design)

Back-End / Framework: Django (Models, Views, Forms, Templates, URL Routing)

Database: MySQL

Tools & Platforms: Git, GitHub, VS Code, MS Word

PROJECTS

1). AI Project Evaluator (Skills: Django | Python | MySQL | Google Gemini AI)

- Built and deployed an **AI-powered web application** that evaluates academic and software projects using **Google Gemini AI**.
- Implemented **8-category project scoring** covering problem statement, innovation, technical implementation, functionality, UI/UX, architecture, documentation, and security.
- Added **PDF, DOCX, TXT, Markdown, source-code, and ZIP analysis** with AI-generated strengths, weaknesses, recommendations, and personalized feedback.
- Implemented **user authentication**, user-specific project access, evaluation history, deletion confirmation, and **production deployment**.
- Live: <https://ai-project-evaluator-x6z9.onrender.com/> | GitHub: <https://github.com/Ahmedbilal778/AI-Project-Evaluator>

2). ChargeHub – Smart EV Charging Management System (Skills: Django | Python | JavaScript | Bootstrap)

- Built and deployed a full-stack EV charging system with station discovery, charger availability, bookings, vehicles, payments, and charging history.
- Added admin management, interactive map, notifications, light/dark mode, and Gemini AI charging insights.
- Live: <https://chargehub-sg1w.onrender.com/> | GitHub: <https://github.com/Ahmedbilal778/ChargeHub>

3). Todo Manager — Task Management Web App (Skills: Django | HTML | CSS | MySQL)

- Built a **full-stack task management web application** using Django, implementing end-to-end task creation and completion workflows.
- Architected the data layer with **Django Models** and connected it to a **MySQL** database for persistent task storage.
- Developed **Views, Forms, Templates, and URL routing** to deliver a functional CRUD interface for end users.

4). Portfolio (Skills: Python | Django | HTML | CSS | JavaScript | Bootstrap)

- Built and deployed a **responsive personal portfolio website** using Python and Django to showcase skills, projects, certifications, and professional profile.
- Implemented Django backend functionality, database integration, contact form, static file handling, and **production deployment**.
- Live: <https://ahmed-bilal-portfolio.onrender.com/> | GitHub: <https://github.com/Ahmedbilal778/ahmed-bilal-portfolio>

EDUCATION

Mahakal Institute of Technology, Ujjain

Degree: Bachelor of Technology, Computer Science Engineering

Expected Graduation: 2027

CGPA: 6.95 / 10

CERTIFICATIONS

- Tata Cybersecurity Virtual Experience Program — Forage
- Lloyds Banking Group UX Virtual Experience Program — Forage
- DATACOM Software Development Virtual Experience Program — Forage
- Certificate of Appreciation — Student Coordinator, Indian Super Karting Series Season 3.0 (A National Racing Event), Mahakal Institute of Technology, Ujjain & Hindustan Motor Sports (July 3–6, 2024)

ADDITIONAL INFORMATION

- Actively strengthening Data Structures & Algorithms and problem-solving skills, and continuing to build backend and full-stack expertise through self-directed academic and personal projects.
