PROFESSIONAL SUMMARY

Computer Science undergraduate with hands-on experience in **Python, Django, SQL, JavaScript, HTML, and CSS**. Interested in backend and full-stack web development, with practical experience building web applications and Python-based projects. Focused on strengthening development skills, databases, and problem-solving through practical projects.

TECHNICAL SKILLS

Programming Languages	Python, JavaScript, SQL
Frontend	HTML5, CSS3, JavaScript
Backend & Framework	Django
Database	MySQL
Tools	Git, GitHub, VS Code, MS Word

PROJECTS

Todo Manager

Technology: Django, HTML, CSS, SQL/MySQL

- Developed a web-based task management application using Django.
- Implemented task creation and task completion functionality.
- Used Django Models, Forms, Views, Templates, and URL routing.
- Connected the application with a database for storing task information.

Restaurant Ordering System

Technology: Python

- Developed a console-based restaurant ordering application.
- Implemented menu selection, quantity calculation, total billing, and discount logic.
- Practiced Python fundamentals, conditional statements, loops, functions, and user input handling.

AI Customer Support Chatbot

Technology: Python, Django, HTML, CSS, JavaScript, SQL

- Designed a customer support chatbot concept for handling user queries.
- Planned backend functionality, database integration, and user interaction.
- Focused on building a simple and user-friendly customer support experience.

Photography Website

Technology: HTML, CSS, JavaScript

- Developed a photography-focused website with structured pages, custom styling, and interactive elements.

Music Clone

Technology: HTML, CSS, JavaScript

- Built a music-streaming inspired web interface and practiced responsive layouts, styling, and JavaScript interactions.

EDUCATION

Bachelor of Technology — Computer Science Engineering

Mahakal Institute of Technology, Ujjain | Expected Graduation: 2027 | **CGPA: 6.73**

CERTIFICATIONS

- Tata Cybersecurity Virtual Experience Program — Forage
- Lloyds Banking Group UX Virtual Experience Program — Forage
- DATACOM Software Development Virtual Experience Program — Forage

ADDITIONAL

-
- Strong interest in Python and Django web development.
 - Currently strengthening Data Structures & Algorithms and problem-solving skills.
 - Hands-on practice through academic and personal projects.
